## Quarter Turn Fitting :

We use the top-class Ceramic Cartridge in the world, which is with fine quality for unvarying using with quality guaranteed through 100% Water tightness tested under water pressure. The rigidity of the cartridge are high, Even under using condition with unstable water pressure, performing life 5,00,000 operating times are guaranteed.

All the metal parts of the internal cartridge, are made of extruded brass rod ensuring flawless performance for a longer period.

## Features :

- Standard : 1/2", 3/4" and different length
- Main Material : Brass
- Ceramic Material : Al<sub>2</sub>O<sub>3</sub>97%
- Water Pressure : 0.4 Mpa.

Specially designed Ceramic Disc Cartridge of 47mm dia ensures 15-20% increase in water flow even at low pressure.

## Features :

- Maximum Opening Angle : 25°
- Maximum Rotating Angle : 100°
- Tightening Torque of Nut : 8-12 N-m
- Temperature of Cold Water : 10°C
- Temperature of Hot Water : 75°C
- water Pressure : 0.3 Mpa.

Specially designed for new shape. It have a good water delivery at any pressure, good handling and working as well, Still after many years.

## Installation of Cartridge :

- Maximum Hot Water Temperature 80°C
- Maximum Cold Water Temperature 10°C
- Water Pressure Minimum 0.1 bar, Maximum : 10 bar

## Ceramic Disc Specification :

- 95% Alumina | 75-85 Hardness R45N | 0% OpenPorosity
- Operating Temperature is 5°C to 80°C
- Internal part of cartridge along with housing of extruded forged brass.
- Uniform Water Passage is as per standard specification.
- For all range free of cost after sales services is provided by the company for 7 years for company fault only.
- Ganga use world class quality NEOPERL-Aerator for best water flow.

# QUALITY DETAILS

## Quality Policy :

Ganga is committed for achieving “Total Customer Satisfaction” Through.

1. Consistently supplying quality products to our valued customers in time.
2. Continually improving the quality standards by implementing process control and prevention techniques.
3. Improving manufacturing facilities.
4. Complying with government and Safety regulations.
5. Continually improve the effectiveness of quality management system.

## Quality Objective :

1. Consistently reduce the customer complaints.
2. Consistently reduce the cost of product manufacturing.
3. Consistently reduce rejection, rework and process variations.
4. Improve product and process performance.

## Basic Raw Material :

Particulars	As per Standard	Ganga Products
Copper	58.63%	58-61%
Lead	0.5-2.5%	1.8-2.3%
Tin	0.0-1.0%	0.2-0.4%
Nickel	0.0-1.0%	0.2-0.4%
Iron	0.0-0.8%	0.1-0.4%
Aluminum	0.0-0.8%	0.3-0.3%
Manganese	0.0-0.5%	0.06-0.07%
Zinc	Balance	Balance

## Nickel Chromium Thickness :

Physical Properties	Observed
Shore Hardness “A”	70-80
Tensile Strength Kgf/CM2	180-190
Elongation %	350-400
Specify Gravity	1.20-1.25
Compression Set %	19-22

## Nickel Chromium Thickness :

Particulars	As per Standard	Ganga Products
Nickel 10 Micron	10 to Micron	13 to 14 Micron
Chromium	0.3 Micron	0.3 to 0.7 Micron

GANGA provides most excellent faucets with the use of contemporary technology. GANGA always believes in customer satisfaction. Company's skilled executives are constant interface with customers. GANGA also believes that consumers must get the best out of its products. Followings are the general instructions carefully followed by the consumers to get optimum results of the products.

## **General Instructions :**

- Use 25mm pipes rather than 20mm to ensure better water flow and to overcome reduction in dia of pipeline due to scaling inside the pipeline.
- Keep the minimum number of bends in the pipelines and make it travel straight and vertical as far as possible.
- All the supply must have vent pipes. These vent pipes help in removing air-locking in the water supply to give a flow of water from the fittings.
- Test the working of all the concealed fittings installed on a high pressure for leakage before plastering or fixing the line
- Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings.
- Place the outlet point in the overhead tank at least 25cm above the ground level of the tank. This prevents the flow of foreign particles, sand etc., along with water supply into the fittings and thereby preventing the possible damage to the working parts. Clean the tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular interval to avoid deposition of foreign particles.
- Clean the fittings regularly with normal soap or chalk powder to remove scaling/stains. Do not use strong detergents as this may cause damage to the chromium finish provided in all GANGA products.
- Do not use harsh cleaning agents containing abrasive and acids, instead use a soft sponge or wet cloth with soapy water/diluted vinegar to protect the colour coated finish.
- To protect the fine finish of fittings from dirt stains and other damages, cover them with cloth/polypack after their installation till they come into actual use.
- It is suggested that centre to center distance for hot & cold inter for all types of wall mounted mixers should be maintained at 165mm in which case any of our wall mixers from different ranges can be easily installed without any problem.
- Please buy GANGA products from company's authorized dealers only to ensure genuine quality material.
- Insist on genuine spares from company's local service center or its authorized stockist in case of repair or replacement.
- Please strictly follow the instructions manual whenever provided for individual items in their packing boxes for their correct installation & maintenance.
- For any type of technical or service assistance, please contact the nearest GANGA branch office, area representative or dealer.

# WARRANTY TERMS & CONDITIONS

PRODUCTS	PRODUCTS
Ganga Faucets	7 Years
Sensor faucets and other commercial products	1 Year
Sensor, Electronic Circuits and Electrical assembl	1 Year
Battery for Sensor Faucets	Nil

- The product is warranted by Ganga Bath Fittings Limited to be free of defects in material and workmanship for a period of 7 years from the date of purchase. during this period and under normal use, if the product is found to be of faulty manufacture, the same will be repaired or replaced upon proof of purchase, at our option, without charge either for part or labour.
- The warranty will be void and not valid, and Ganga Bath Fittings Limited will have no liability if The product is not installed, operated or maintained and serviced in compliance with instructions and recommendations of Ganga Bath Fittings Limited for trouble free fittings.
- Modifications, repairs or service are made to the product, nature of the product/logo has been altered, defaced or removed, or the warranty card has been altered.
- Problems arising form normal wear and tear, improper maintenance or improper use/application of product or components of the same or use of poor/bad quality of water.
- The product has been installed and operated outside its designated plumbing conditions and parameters.
- In Case of any Dispute, this Warranty is Subject to Jurisdiction of Rajkot Courts Only.
- Warranty is not Applicable in Breakages & Damages.

Customers' Faith Is The Greatest Award...
